

# CHPS PreFAB™ Update:

**Realizing the promise of healthy, high performance prefabricated classrooms**

The Collaborative for High Performance Schools (CHPS) has defined healthy, high performance schools through best practices and the CHPS Criteria since its inception; and for modular classrooms for almost a decade. Prefabricated school construction has evolved and made major strides during that time.

CHPS is pleased to announce the updating of the CHPS Criteria and best practices for prefabricated school buildings thanks to the generous support of American Modular Systems (AMS) and Bard Manufacturing Company, as Presenting Sponsors. The update will be guided by an ad hoc subcommittee of the CHPS National Technical Committee.

## Get Involved

Participation opportunities exist for:

- Voting subcommittee members, especially school district representatives
- Non-voting advisory member/subject matter experts
- Interested parties

Are you a prefabricated school building manufacturer, school district, supplier, design professional, utility or K-12 school stakeholder? Complete a short survey <http://goo.gl/forms/hmA9BUhD6M>.

## CHPS PreFAB is Unique

For Manufacturers - Triages the criteria that are within the control of the manufacturer and the school

For Schools - Enables purchasing a pre-approved high performance classroom model with chain-of-custody assurance for the building that you buy.

## Scope

The Update is comprised of three parts:

1. Modify the CHPS Criteria for Prefabricated Classrooms and the CHPS PreFAB pre-approval program for consistency.
2. Update the Prefabricated Classroom volume (VI) of the CHPS Best Practices Manual (BPM)
3. Revise the High Performance Prefabricated Classroom specification

## Timeline

- Oct 29 - PreFAB Update Kickoff at the California Green Schools Summit
- Nov-Dec – Subcommittee deliberations
- Dec-Feb – Public Review
- Feb 24 – Launch of updated PreFAB Criteria at CASH conference
- Mar-Jun – Update best practices and specification
